Dear customer,

- As a furniture producer we would like to inform you that a wall fixing furniture can be good only if the connection between fixing material (plugs) and the wall is better. For the suspended items check the wall and use only appropriate type of dowels (brick, BCA, plasterboard, etc.) purchased from a specialty store.
- The assembler is ultimately responsible for fixing it to the wall. Installation and laying of electrical items will be made only by qualified and authorized personnel.
- Follow the description and specification of maximum weight in the assembly instructions – in case of overload that may occur due to children playing, people, material or due to other factors – we assume no liability as a manufacturer of furniture.
- A perfect functionality of the furniture is assured only if at the place, it is adjusted horizontally and vertically. Only after this will the doors be adjusted.
- All screws and removable connection elements will be checked and tightened after 5 to 6 weeks to ensure safety of final fixation.
- Do not use abrasive cleaners.
- If the instructions for use, service or installation are not followed, if product modifications are made, if parts are changed or parts that do not correspond to the original parts are used, then any warranty or claim of responsibility on the part of the furniture manufacturer is lost.

Stimate client,

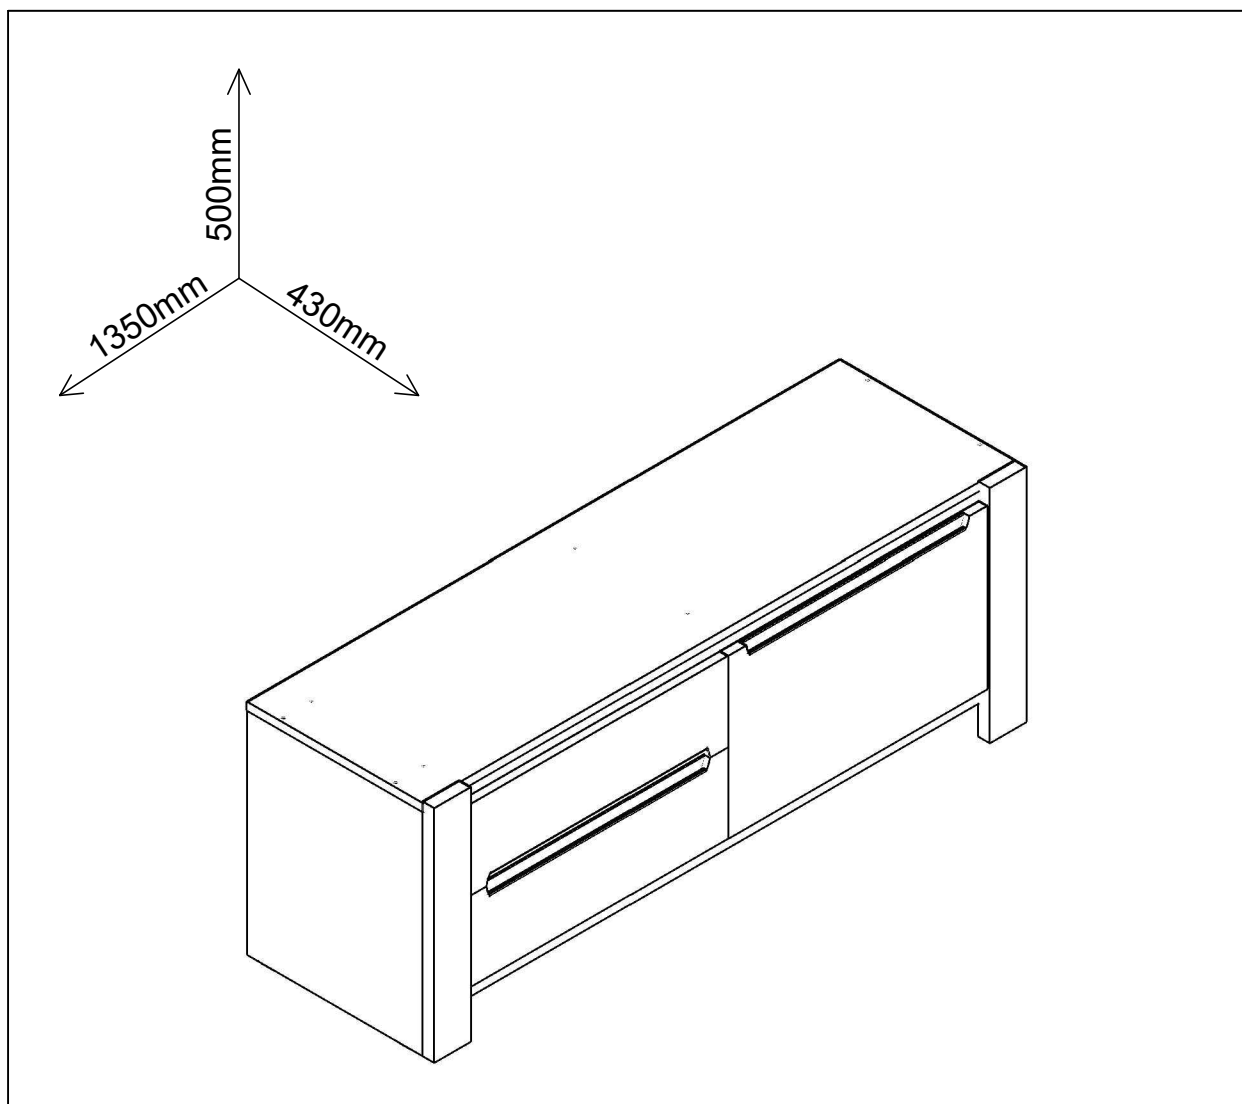

În calitate de producător de mobilier am dori să vă informăm că o fixare a mobilierului de perete poate fi bună doar dacă legătura dintre materialul de fixare (dibluri) și perete este bună. În cazul corpurilor suspendate verificați peretele și folosiți doar dibluri corespunzătoare tipului de perete (caramida, BCA, rigips, etc.) achiziționate dintr-un magazin de specialitate. În definitiv montatorul este responsabil de fixarea de perete.

- Montarea și pozarea articolelor electrice se va efectua doar de către personal calificat și autorizat.
- Respectați descrierea și specificațiile de încărcare din instrucțiunile de montaj – în caz de supraincercare ce poate să apară datorită copiilor care se joacă, datorită persoanelor, materialului sau datorită altor factori – nu ne asumăm nici o răspundere ca producător de mobilier.
- O funcționalitate perfectă a mobilierului este asigurată doar în cazul în care la așezare, aceasta se reglează pe orizontală și verticală. Doar după aceasta se vor regla ușile.
- Toate suruburile și elementele de îmbinare demontabile vor trebui verificate și strânse după 5 până la 6 săptămâni pentru a se asigura o siguranță definitivă a fixării.
- Nu folosiți agenți de curățare abrazivi
- În cazul în care nu se respectă instrucțiunile de utilizare, de deservire sau de montaj, dacă se efectuează modificări ale produselor, dacă se schimbă piese sau se folosesc piese care nu corespund pieselor originale, atunci se pierde orice garanție sau pretenție de responsabilitate din partea producătorului de mobilier.

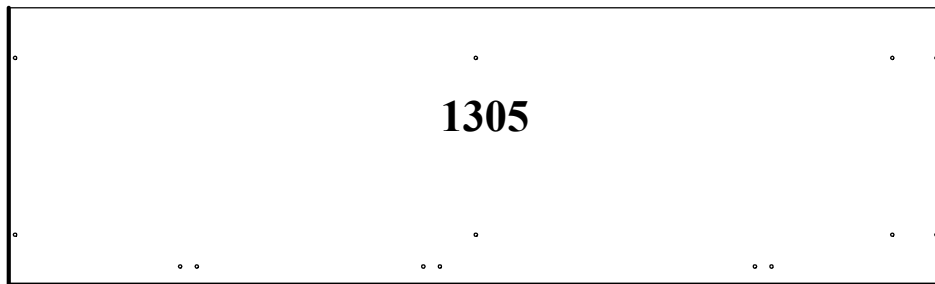

|                                                                                                                                   |                                                                                                                                     |                                                                                                                                    |

## Caracteristici tehnice produs

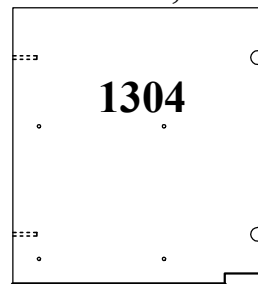

- Materiale:
- Placi din aschii de lemn (PAL), meleminate de grosime = 16 si 25 mm
  - Placi din fibre de lemn de inalta densitate (HDF) de grosime = 3 mm
  - Cant ABS mm
  - Elemente de imbinare din plastic si metalice
  - Fronturi din MDF
  - Balamale aruncatoare metalice
  - Glisiere metalice cu amortizare
  - Picioare baza plastic
